TRAINING FACILITIES NEEDED FOR Y-RAY TECHNICIANS

M. Khyorost, X-Ray Technician Kem' Station, Kirovsk Railroad

Special 6-month courses should be offered at the various capitals of the republics of the USSR, as well us in some of the larger oblast cities, to train engineers and maintenance men in the fundamentals of the assembly, maintenance, and operation of X-ray and physiotherapy equipment. As the situation now stands, much new X-ray and physiotherapy equipment is being installed at various rural points but there are no qualified personnel to operate or care for it. Very few oblast cities have such specialists and in rayon conters they are almost nonexistent.
